

GARAGE DOOR ACCESSORIES AND KITS

DigiDoor Single Roll-Up Kit

GA90-2

- Installation kit which allows a single motor to operate single roll-up doors
- Used with all Digi roll-up garage door openers

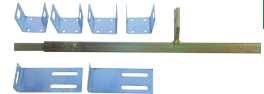

digitronic

DigiDoor 3 Double Roll-Up Kit

GA90-3

- Double roll-up hardware kit
- Includes mounting brackets and poles
- For central vertical motor mounting

digitronic

3

TRAFFIC BARRIER SYSTEMS

CENTINEL Manual Boom 3 / 4.5 / 6m Mild Steel - No Pole

GA81-4

- Housing epoxy coated mild steel
- Internal spring counterbalance
- Attractive slim-line construction
- Convenient actuating handle for raising boom pole
- Thumbwheel to secure pole in raised or lowered position

CENTURION

CENTINEL Manual Boom 3 / 4.5 / 6m Stainless Steel - No Pole

GA81-5

- Housing epoxy coated grade 3CR12 stainless steel
- Internal spring counterbalance
- Attractive slim-line construction
- Convenient actuating handle for raising boom pole
- Thumbwheel to secure pole in raised or lowered position

CENTURION

SECTOR DC High Volume Barrier 4.5m Incl. Pole

GA82

- Battery backup 12VDC 7Ah and 2A charger
- High volume capability at 80% duty cycle
- Rapid boom pole raise (3m version < 1.2 sec)
- Smooth, intelligent speed control
- Robust, durable and slim-line operator casing - epoxy, zinc electroplated
- LCD User interface for simple set up
- On-board NOVA 500 button multichannel receiver with selective delete

CENTURION

TRAFFIC BARRIER SYSTEMS

SECTOR DC Barrier 3.0m Incl. Pole

GA82-1

- Battery backup 12VDC 7Ah and 2A charger
- High volume capability at 80% duty cycle
- Rapid boom pole raise (4.5m version < 3 sec)
- Smooth, intelligent speed control
- Robust, durable and slim-line operator casing - epoxy, zinc electroplated
- LCD User interface for simple set up
- On-board NOVA 500 button multichannel receiver with selective delete

SECTOR DC Barrier 6.0m Incl. Pole

GA82-2

- Battery backup 12VDC 7Ah and 2A charger
- High volume capability at 80% duty cycle
- Rapid boom pole raise (6m version < 3 sec)
- Smooth, intelligent speed control
- Robust, durable and slim-line operator casing - epoxy, zinc electroplated
- LCD User interface for simple set up
- On-board NOVA 500 button multichannel receiver with selective delete

CLAWS Spike System 3m Length Independent Drive Flush Mount

GA120

- Mounts flush with road surface
 - 12V DC Input voltage
 - Anti-corrosion chassis - hot dip galvanized mild steel
 - 85mm Mild steel, electroplated and powder coated spikes
 - On-board receiver
 - Supports output for robot interface
 - All moving parts are removable for easy maintenance
 - High-torque DC motor for greater reliability and responsive operation
 - External limit switches provide a failsafe operation
- Also available: GA120-1 CLAWS Spike System 4.5m length Independent Drive Flush Mount

CLAWS Spike System 3m Length Independent Drive Surface Mount

GA121

- Mounts above road surface
 - 12V DC Input voltage
 - Anti-corrosion chassis - hot dip galvanized mild steel
 - 85mm mild steel, electroplated and powder coated spikes
 - On-board receiver
 - Supports output for robot interface
 - All moving parts are removable for easy maintenance
 - High-torque DC motor for greater reliability and responsive operation
 - External limit switches provide a failsafe operation
- Also available: GA121-1 CLAWS Spike System 4.5m length Independent Drive Surface Mount

TRAFFIC BARRIER SYSTEMS

CLAWS Spike System 3m Length Direct Drive Flush Mount

GA122

- Mounts flush with road surface
 - Uses standard SECTOR controller and gearbox allowing for reduced spare inventory
 - Anti-corrosion chassis - hot dip galvanized mild steel
 - 85mm Mild steel, electroplated and powder coated spikes
 - All moving parts are removable for easy maintenance
- Also available: GA122-1 CLAWS Spike System 4.5m length Direct Drive Flush Mount

3

CLAWS Spike System 3m Length Direct Drive Surface Mount

GA123

- Mounts above road surface
 - Uses standard SECTOR controller and gearbox allowing for reduced spare inventory
 - Anti-corrosion chassis - hot dip galvanized mild steel
 - 85mm Mild steel, electroplated and powder coated spikes
 - All moving parts are removable for easy maintenance
- Also available: GA123-1 CLAWS Spike System 4.5m length Direct Drive Surface Mount

Traffic Light Kit 2 Way Red And Green 12VDC incl. Brackets

GA125

- Supply voltage of 12 – 24V DC
 - 45 LEDs
 - 50 000 Hours lifespan
 - Aluminium housing
- Also available: GA125-1 Traffic Light Mounting Post for Barrier 304 stainless

Speed Bump Kit 6m Roadway

GA123

- Modular design
 - Easy to install
 - High visibility
 - Easy to remove and relocate
 - Made from high-quality rubber
- Also available: GA126-1 Speed Bump Kit - 8 meter roadway and GA126-8 Rubber Speed Bump Reflector

TRAFFIC BARRIER SYSTEMS

ET Access Blue Straight Incl. Pole

GA140

- Max pole length: 6m
- Telescopic pole length: Adjustable from 3m to 6m
- Heavy duty cast gearbox assembly
- Dual limits - magnetic and mechanical fail safe
- Powerful 650 Watt motor
- Manual release mechanism
- Removable control card housing for ease-of-access

ET Access Blue 180 Incl. Pole

GA141

- Max pole length: 3m
- Heavy duty cast gearbox assembly
- Dual limits - magnetic and mechanical fail safe
- Powerful 650 Watt motor
- Manual release mechanism
- Removable control card housing for ease-of-access

ET Access Blue Boom Incl. Fence

GA142

- Max pole length: 5m
- Heavy duty cast gearbox assembly
- Dual limits - magnetic and mechanical fail safe
- Powerful 650 Watt motor
- Manual release mechanism
- Removable control card housing for ease-of-access
