

FREE STANDING FENCE PRODUCTS AND ACCESSORIES
Line Clamps Large
EF30

- Galvanised large nut and bolt for electric fence connections for larger fences using thicker high tensile steel wire
- 8mm U Bolt

Tensioner Donald
EF41

- Hot dip galvanised
- Ratchet tensioning device for free-standing or long fences

Tensioner Combo Black Bobbin
EF41-2

- Hot dip galvanised
- Combination ratchet tensioner and insulator
- Tensioner for free-standing and long fence sections

5
Tensioner Hybrid Big Boy Heavy Duty Nylon
EF41-8

- A hardy heavy duty tensioner for all weather types
- Versatile tensioner - from 1.2 mm to 2.5 mm wire
- It eliminates galvanic reaction between dissimilar metal thus eliminating rust and can be used with any type of wire

S-Hook 5mm Galvanised Free Standing
EF55

- Hot dipped galvanised 5mm steel
- Used for free-standing electric fences
- Connects strain insulator to corner post

INSULATOR RANGE
Round Bar Insulator Bobbin Black
EF26

- UV Stabilised for long life
- Wire clip ensures fixed wire position and prevents tampering
- Used on 10mm round bar electric fence poles

Part No. For:

 White: **EF27**
EF26
EF27

Flat Bar Insulator Bobbin Black
EF28

- UV Stabilised for long life
- Wire clip ensures fixed wire position and prevents tampering
- Used on flat bar electric fence poles

Part No. For:

 White: **EF29**
EF28
EF29

INSULATOR RANGE

Nail-On Insulator Black

EF24

- UV Stabilised for long life
- Used for all flat surface mounting electric fences (steel, brick, wood)
- Can be fixed using nails, screws, rivets etc.

Part No. For:

White: EF25

EF24

EF25

NEMTEK
Electric Fencing Products

Modulus Slide Insulator Black

EF175

- Insulator for all modulus poles
- Adjustable wire spacing via break-offs

NEMTEK
Electric Fencing Products

Modulus Spacer Black

EF176

- Break-off wire spacer for all modulus poles
- For 50mm adjustable wire spacing increments

NEMTEK
Electric Fencing Products

Insulator - Popem Bobbin Black

EF26-1

- Large creepage distance to reduce power loss and arcing
- Feed through clip option built-in to thread the wire through for higher security
- UV stabilised for external use

NEMTEK
Electric Fencing Products

Insulator - Jurassic - Black 6.2mm

EF26-2

- Longer tracking distance for less arcing
- Feed through option to thread the wire for maximum security
- Also available: EF26-4 Screw - Jurassic Self Tapper Hook

NEMTEK
Electric Fencing Products

Insulator - Jurassic - Black 6.2mm Slot

EF26-3

- Longer tracking distance for less arcing
- Feed through option to thread the wire for maximum security
- Slotted clip option available for a quicker wire placement
- Also available: EF26-4 Screw - Jurassic Self Tapper Hook

NEMTEK
Electric Fencing Products

Jurassic Self Tapper Hook

EF26-4

- Jurassic insulator fastener is a self tapping hook to fasten the Jurassic insulator to the square tube brackets.
