S65 Ionisation Smoke Detector

FR15

- Smoke detector utilising ionisation (conduction) technology
- 9 to 33VDC Supply voltage
- Needs to be used in conjunction with a standard base (FR23) or a relay base (FR23-1)
- For use with all conventional fire and alarm systems

S65 Optical Smoke Detector

FR19

- Smoke detector utilising optical technology
- 9 to 33VDC Supply voltage
- Needs to be used in conjunction with a standard base (FR23) or a relay base (FR23-1)
- For use with all conventional fire and alarm system

S65 Smoke Detector Standard Base

FR23

- Standard relay base for use with all S65 series smoke and heat detectors
- Facilitates all wired connections between panel and sensor
- For conventional 2 wire systems

S65 Smoke Detector Relay Base

FR23-1

- Relay base for use with all S65 series smoke and heat detectors
- N/O, N/C relay contacts
- For connection to alarm panels

S65 Heat Detector

FR14

- Rate-of-rise heat detection
- Class A1R
- 9 to 33VDC Input voltage
- Used with FR23 or FR23-1 standard or relay base

DETECTORS
Photoelectric Smoke Detector
FR22-1

- 12DC Supply voltage
- Normally closed relay output 100mA
- 80m² Coverage at 6 to 12 meter heights
- 60m² Coverage below 6 meter height
- For use with conventional alarm systems

SECURI-PROD
Standalone 9V Smoke Detector Twin Pack
FR28-1

- Standalone ionisation smoke detector
- Internal 9VDC battery power
- Dual ionisation chambers
- Loud, audible alarm 85dB
- Low battery warning
- Alarm test button

CALL POINTS
Green Call Point
FR02

- Mechanical emergency door release switch
- Green surface mount box with conduit knockout
- Manual key resettable actuator
- Break-glass activation
- With hinged clear plastic protective cover

6
Green Call Point Resettable
FR02-1

- Mechanical emergency door release switch
- Green surface mount box with conduit knockout
- Manual key resettable actuator
- Push point activation
- With hinged clear plastic protective cover

Call Point Spare Glass
FR04

- Replacement Break-Glass for FR02 & FR03
- Dimensions: 72mm x 44mm x 2mm
- Also Available: FR04-2 Dimensions: 77 x 40mm

Fire Red Call Point
FR03

- 2 Piece manual emergency fire red call point
- Manual key resettable actuator
- Break-glass activation
- With hinged clear plastic protective cover
